**Subject:** FW: PFAS slides submitted for clearance for presentation to EPA Region 2 on March 3  
**Attachments:** 200225 R2 NJ soils briefing.pptx

Hi Brian,

Attached are John's slides for the afternoon briefing to Region 2 staff on March 3. I've compared these to the slide deck that was previously cleared by ORD and presented at the briefing for the NJDEP on Dec. 9, 2019. Many of the slides are identical to the slides that were cleared for the Dec. 9 briefing (with the exception of a slightly modified watermark at the bottom of the slides). The slides that differ from those presented at the Dec. 9 briefing include slight text modifications that do not change the results or conclusions presented.

What type of clearance process is needed for this presentation? I don't think the Dec. 9 presentation was put in STICS, but it was routed through Tim Watkins and Andy Gillespie up to David Dunlop.

Thanks,  
Caroline

Hi Caroline,

Do I submit these slides to you? If not just point me in the right direction!

A closely similar set of slides were cleared by Andy Gillespie in late November or early December for presentation to NJDEP.

Thanks,  
John
